

Nanomix Awarded US Patent for Nanomix eLab[®] System

Emeryville, CA (October 12, 2016) - Nanomix Inc., (Nanomix), a leading nanotechnology company focused on development of next generation point of care diagnostic tests to enable earlier and more accurate testing in hospital and pre-hospital settings, has been awarded a US Patent related to its Nanomix eLab[®] system.

“We are pleased to receive this patent covering many innovations in our eLab system”, said David Ludvigson, President and CEO of Nanomix. “The patent provides recognition of our technology as well as commercial protection of our unique approach to mobile, point-of-care diagnostic testing.”

US Patent 9,458,488 entitled “Point of Care Sensor Systems” was issued on October 4, 2016.
